

## NEW LUXURY SPA IN HOTEL SCHWEIZERHOF DIVING INTO AN URBANE WELLNESS WORLD

On 1 February 2012, Hotel Schweizerhof in Bern opened its new luxurious spa area that covers 500 square metres in the hotel basement. The atmosphere is very modern and urbane, with exquisite materials such as oak, dark natural stone and metallic wallpaper, but at the same time warm. The guests enter a world miles away from the hustle and bustle of the Bahnhofplatz – a realm of relaxation à la Schweizerhof. You can get away from it all and literally wash away those stressful days in the water area featuring an indulgence pool with two jacuzzis and a bubble lounge, the Finnish sauna, hammam facilities and massage showers. For active regeneration, we have endurance and strength training devices of the latest "Technogym" generation. The highlights on the "spa menu" are massage and beauty treatments. Our trained team of specialists uses products and treatments from the well-known cosmetics company "Sothys Paris".
